

# Container Pontoon CP-4088

Road Transportable Connecting  
Pontoon System

24.0m x 17.0m x 2.43m

728t Deck Load

## General

|                |                                       |
|----------------|---------------------------------------|
| Type           | Road Transportable Connecting Pontoon |
| Classification | Bureau Veritas (BV)                   |
| Pontoon Type   | CP-4088                               |

## Main Dimensions Per Pontoon Unit

|           |         |
|-----------|---------|
| Length    | 12.19 m |
| Breadth   | 2.436 m |
| Depth     | 2.438 m |
| Max Draft | 2.100 m |

## Capacity Per Pontoon Unit

|                   |                   |
|-------------------|-------------------|
| Load Capacity Max | 52t               |
| Deck Load         | 4t/m <sup>2</sup> |
| Weight            | 11.500kg          |

## Assembled Pontoon Unit

|                 |  |
|-----------------|--|
| Barge Assembled | 17.0 m x 24.38 m (14 x Units Expandable) |
| Deck Load       | 728t                                     |

## Optional Equipment

- Spud legs
- Mooring Winches
- Crawler Crane

# WHY JACKUP GB?

- Safety always and NEVER compromise
- Client focus – friendly experienced team with non contractual approach
- Get it right first time – importance of fully engineered solutions
- Competent, experienced and motivated workforce
- Dedicated project management and engineering teams
- Committed to investment in personnel development
- Innovative solutions
- Proven track record

## Typical Work Applications

### Ports and Harbour Development

- Site and ground investigation platform within rivers, docks and port facilities
- Soil & Rock Drilling – Cone Penetration – Wireline Logging – Instrument Installation
- Flexible extendable working platform where access for mono-hull barges is restricted
- Construction & Piling – Crane Platform – Repair & Maintenance - Access Solutions - Demolition

### Jetties and Terminals

- Deep water operations up to 30m water depth
- Site and ground investigation within ports and harbours
- Heavy piling operations
- Materials transportation and craneage
- Dredging
